

180! Around the Clock

Players: One

Darts: Three each turn

Rules:

The object of this game is to hit the treble for every number on the board from 1-20. The numbers must be hit in order (hit treble 1, then hit treble 2, then hit treble 3 and so on).

If you hit the treble, you score 3 points.

If you hit single or double, you score 1 point.

Once you hit a number, you move on to the next number – whether you hit the single, double or treble.

Calculate how many points you scored. (The maximum is 60, which equals 3 trebles on each number).

Attempt the game again, aiming to increase your score.

Advanced Practice

Aim for the treble of each number 3 times e.g. aim for treble 1 with 3 darts.

Every time a treble is scored, you earn 3 points.

Work from 1-20. Move on to the next number on each turn (every 3 darts)

Calculate your score – the maximum is 180, which is 3 trebles on each number.

Attempt the game again, aiming to increase your score.
